Leppävaara, Espoo

## TECHNOLOGIES

(Proficient Intermediate Beginner)

Frontend:	Misc:
JS + Typescript	Excel
React	VS Code
CSS	Visual Studio
Backend:	Photoshop (Gimp)
Scala	Scrum
C#	Agile
Python	Git
Java + Kotlin	Azure DevOps
C	Machine Learning, AI
Database:	Android Studio
SQL	

## SKILLS

Problem solving	English
Critical thinking	Finnish
Creative thinking	Independent work
Communication	Improvisation
Management	Brainstorming
Teamwork	Giving and receiving feedback
Team building	Writing human-readable code
Public speaking	Focusing on bringing value
UI/UX design	Teaching others
Leading	Simplifying problems

## ABOUT

I am a passionate and driven young mind eager to apply my skills and enthusiasm in a dynamic team environment. I am a quick learner who thrives on challenges and continuous growth. I am particularly interested in exploring diverse workplaces and career paths to expand my expertise. My key areas of interest include:

- **DevOps & Cloud** – Development workflows and infrastructure
- **CI/CD** – Automating and optimizing software delivery
- **Full-Stack Development** – Scalable and user-friendly applications
- **Information Security** – System and data protection
- **New Languages & Frameworks** – Expanding my technical toolkit

I am eager to contribute, learn, and grow, making me a strong addition to any development or engineering team!

## WORK EXPERIENCE

### ABB: Software Developer Trainee (2023-2024)

- Worked with **DevOps** tools for **CI/CD** pipelines and automation
- Collaborated with the team to debug, test, and optimize
- Worked on building a flexible **unit test** system
- Gained experience in **Git**, **C#** and **Agile** methodologies
- Adapted quickly to new technologies and environment
- Signed an NDA

### Full Stack Software Project Course (2022-2023)

- Practical experience in **Full Stack Development**

## HOBBIES

- Coding Projects – Experimenting with new technologies
- Gaming & Game Design – Enjoying video games, board games, and creating game mechanics
- Role-Playing & Storytelling – Immersing in character-driven narratives and world-building
- Philosophy & Psychology – Exploring ideas about the mind, the world, and the people around me
- Deep Conversations & Long Walks

## EDUCATION

### Computer Science, Aalto University

2019 - 2025

- Bachelor studies complete, GPA ~4
- Master's studies in progress
- Total credits ~225/300

### Reserve Officer, Finnish Defence Forces

2020 - 2021

- Learned to work, teach, organize and lead under pressure
- Got 3rd best score out of barracks of 200 in Hamina
