EDUCATION

Aalto University

Master of Science in Computer Science

Espoo, Finland

2019 – 2026

Reserve Officer School, Finnish Defence Forces

Leadership Training

Hamina, Finland

2020

EXPERIENCE

Software Developer

ABB

2023 – 2024

Helsinki, Finland

- DevOps & Automation: Optimized CI/CD pipelines to streamline software delivery, reducing deployment steps.
- Testing Strategy: Designed and implemented a flexible Unit Test system, ensuring higher code quality and faster debugging for the team.
- Agile Collaboration: Worked effectively in an Agile environment, actively participating in sprint planning and code reviews.
- Rapid Learning: Quickly mastered internal frameworks to deliver production-ready code.
- Took initiative on projects and problems that weren't assigned to me. Collaborated with different teams on finding solutions.

Full Stack Developer

Aalto University (course)

2022 – 2023

Espoo, Finland

- Frontend: Designed and built responsive UIs/UX with React and TypeScript for type-safe state management.
- Backend: Developed functional backend services using Scala and MySQL. Engineered complex data validation logic (regex). Created scalable API endpoints for new features.
- Testing: Wrote comprehensive End-to-End and unit tests to ensure stability.

Fire Safety Technician

Dunet

Summers 2016 – 2019

Espoo, Finland

- Installed new sensors and maintained the fire safety equipment network at Kamppi, Jumbo and Jorvi Hospital.
- Worked independently in a high-stakes environment where strict adherence to safety protocols was mandatory.

PROJECTS

"Janitor" IoT Controller | *Python, Docker, REST API, Raspberry PI, HTTP*

2025

- Engineered a low-latency local server on Raspberry Pi to replace a sluggish vendor-provided cloud application.
- Conducted deep debugging and root cause analysis, identifying hardware firmware limitations as the source of network unresponsiveness.

Personal Portfolio Website | *React, Vite, TailwindCSS, Javascript, Markdown, JSON, Git*

2025 – present

- Designed and deployed a responsive personal portfolio to showcase projects, hobbies and writing.
- Implemented a modern tech stack and CI/CD workflow using GitHub Pages for automated deployment.

Personal Knowledge System (Zettelkasten) | *Markdown, Git, Syncthing*

2025 – present

- Architected a knowledge base containing over 300,000 words, using Syncthing for p2p cloud between devices.
- Implemented structured linking protocols to organize complex technical concepts, optimizing information retrieval and idea synthesis.

Oura Health Integration | *TypeScript, REST API, Oura API*

2025

- Developed a custom plugin to asynchronously fetch biometric data via the Oura Cloud API. Automated the serialization of JSON response data into formatted Markdown, seamlessly integrating health metrics into daily Zettelkasten notes.

TECHNICAL SKILLS

Languages: Finnish, English, Scala, Java, Python, C/C++, C#, SQL (Postgres, MySQL), JavaScript, HTML/CSS

Frameworks: React, Vite, TailwindCSS, Node.js

Developer Tools: Git, GitHub, GitHub Pages, Docker, Google Cloud Platform, VS Code, Visual Studio, IntelliJ, Eclipse, LLM-assisted workflows, DevOps, CI/CD, Agile

Libraries: pandas, NumPy, Matplotlib, PyTorch, JuMP
